THE WEATHER.

The daily record of the thermometer in this city for yesterday, as kept at C. W. Brandon's drug store, was: 7 a. m. 48 degrees above; 12 m. 68 degrees above; 4 p. m. 74 degrees above; 8 p. m. 65 degrees above.

ABOUT THE CITY.

Additional local news will be found on the Sixth page.

James Steele of Warm Springs spent yesterday in Anaconda.

James Steele of Warm Springs was in the city on business yesterday.

Silver Council, Y. M. L. No. 124, will hold a regular meeting tonight at Standard hall.

J. Cosgrove has greatly added to the creditable appearance of his residence on Oak street by having a veranda and balcony erected.

A special meeting of the local lodge of Elks will be held this evening for the purpose of conferring degrees and the transaction of other business.

Mrs. A. G. Young of 513 East Seventh street, left this morning to spend three weeks visiting her friend, Mrs. Walker, who resides a short distance east of the city.

W. Seba has laid 100 feet of sidewalk opposite his property on Birch, between Sixth and Seventh streets, which greatly improves the appearance of the property.

A meeting of the Wolf Tone Guards will be held to-night in the French hall, at which time the committee on arrangements of the late ball and entertainment is expected to report.

Seats for "La Zarina," which will be presented here by Kline on Thursday are selling rapidly, and good seats are in demand. Tickets can be procured at the Smith Drug company's store.

C. W. Brandon is having his drug store repainted and papered inside. The work is being done by Mohan Bros. When completed the interior of the place will present a handsome appearance.

Peter Lavengood is authority for the report that Tom Palmer, while prospecting in Olson gulch a few days ago picked up a diamond which a local jeweler said would have been worth \$50,000. It was not for the fact that the finder cracked it with a hammer.

Dave O'Connor, the impartial race starter and clerk of the Montana circuit, who is also county auditor for Silver Bow county, was in the city on business connected with the different race meetings yesterday. Dave is conceded to be one of the most successful starters that ever dropped a flag on a Montana track.

Civil engineers yesterday commenced the survey of the proposed extension of the eastern end of the street railway. It is not a settled fact that the road will be extended this year, but if the estimate of the engineers is satisfactory the work will be vigorously prosecuted. It is intended to extend the road to Hale's boarding house, a distance of half a mile.

The attendance at the different clubs, lodges and societies during the past week has increased nearly 50 per cent., and business men who formerly returned from their offices early in the afternoon, find such a rush on their hands that it is impossible for them to get home to dinner until late in the evening. This is attributable to the fact that the spring house cleaning season is at hand.

The stream which flows from Sheep gulch and passes east on Sixth street has swollen to such a height that the management of the Tuttle Manufacturing and Supply company found it necessary to put a staff of men on to dredge the course in order to protect the road leading to the foundry. The Chinese had had a narrow escape from being submerged, and were it not for the novel means adopted by the Mongolian gardener he would have been a loser to a great extent. He filled large tea casks with gravel and placed them in such a position that the course of the water was changed. Five men are employed at the work and will probably finish to-day.

A young druggist doing business in this city noticed an advertisement in a medical journal advertising a cure for the liquor habit. The pill compounder, though not an habitual imbiber, has a weakness for beer. Being curious to know whether or not the formula would prove a success he prepared a bottle of it for his own use and commenced taking regular doses of it. The result was that in a few days his appetite for beer vanished, much to the disagreeable surprise of the patient. It need hardly be added that the cure, for such it was called, was permanently set aside, and the druggist at once commenced the cultivation of the appetite he was so suddenly and sorrowfully deprived of.

Quite an exciting scrap was witnessed by the citizens of Carroll at an early hour yesterday morning, the principals being Chris Jensen and W. Coulter. The scrap occurred in the dining room of P. Hale at breakfast time over a slight dispute between the men. Mr. Hale promptly hustled them into the street, saying that scrapping in his house was very much against the rules of the institution. The men by mutual agreement repaired to a vacant lot, accompanied by a large concourse of people, to fight it out. The usual formality of handshaking, tying on gloves, appointing seconds and time keepers was dispensed with. They did not even recognize any particular rules or regulations and apparently wanted nothing but gore. No time was lost after the battle ground had been reached, and those who went out to see a good lively scrap were not disappointed. The fight lasted several minutes, and while neither of the men were seriously punished, it was a bravely fought battle and was won by Jensen, who was considerably the smaller of the two. Just what the origin of the trouble is could not be learned, but it has been settled satisfactorily to all concerned.

AGAINST THE CHINESE

A Address to the People of the City of Anaconda.

PROTECT AMERICAN LABOR

Why Mongolians Should Be Boycotted by All Good Citizens—In Sympathy With the Coeur d'Alene Miners.

At a meeting of the Deer Lodge County Trades and Labor assembly held last Monday night, the following address and resolutions were adopted:

To the People of Anaconda and Vicinity: Up to the present time, this trades assembly has had no important questions of general interest to the people before it, except the Chinese question, and we desire here, as briefly as possible, to give to the public our views on the question, the result of close observation. Last January subjects came before this assembly and were thoroughly discussed, and the conclusion reached was that the Chinese were a detriment to the community and especially to the mining class. Our forefathers excluded them and invited all others from whatever nation to come and make this their home, until 1882, when the Chinese, holders and capitalists became satisfied that they or slavery would leave this free country. Not till then did the immigration of the Mongolian hordes begin. They have proven themselves unworthy of freedom, and are a menace, in the hands of the greedy contractor and employer of labor, to the masses. It needs no argument to prove this assertion. They take the positions of all and day laborers as fast as they are allowed to, for whatever pay the contractor or employer will give. All through California where they are most numerous they are doing all kinds of labor and business. They work themselves into positions step by step, higher and higher. On the Southern Pacific and Central Pacific railways, there are many of them firing engines, some dispatching engines, or holding as it is called—the last step before running switch engines. When they commenced in the section title did the Chinese men think they would soon be taking their positions, yet they are doing it. When business men first employed them little did they think they would start up the same line of business in opposition as soon as they learned the business, still they are doing it. When the boarding house keepers in this city first commenced to hire them as kitchen help, they did not think they would start boarding houses and restaurants and give better meals for less money than they could stand the boycott for more than five months that would have broken any white man in one month, that is now in the same line of business in this city. Still they have done this and are here yet.

The Chinese have proved themselves capable of anything in which they have been engaged, and they always fix the positions so no white man can follow them successfully. Have they not proved that in Anaconda? Where is the white man that can take their place in the kitchens of boarding houses and work nights and Sundays and never get sick, tired or old and use the trouble of getting another in his place? Where are the white men who will run a restaurant and compete with them on all points? Where are the white men or women who will wash and iron clothes as cheap as they will when they get down to cases? Where are the white men who can fill the positions of kitchen help and give better meals for less money than they could stand the boycott for more than five months that would have broken any white man in one month, that is now in the same line of business in this city. Still they have done this and are here yet.

We believe that unless the boarding house proprietors in this city put forth every effort to rid the community of this pest that it will not be long that a white man will be able to engage in that business. We believe that it will be a benefit to all people in this community to drive them from our midst.

We believe that it is your fight as well as ours, for whoever strikes the Chinese strikes the middle men. Now, therefore, we ask you again to give us your hearty co-operation and push this question to a successful termination. If at first you don't succeed, try, try again.

Resolved, That any person who boycotts white folks by patronizing Chinese in preference to an enemy to his country, an enemy to his race and an enemy to the best interests of this community, and who is unworthy of our patronage and the recognition of white folks.

Resolved, That all persons possessed of any love for American institutions and the "greatest good to the greatest number," and all who believe "an injury to one is the concern of all," will assist us in this reform movement by refusing to patronize any person known to be patronizing Chinese directly or indirectly.

Resolved, That any person taking or accepting a position in a kitchen in this city and leaving his kitchen without giving ample notice, so that his place may be filled by a competent person, or anybody taking or accepting such place and holding it as not to be able to do the duties required of him, shall be boycotted by the daily press and shall be boycotted by all boarders who are in sympathy with this movement by refusing to board in any house that shall afterward employ him.

The following resolutions were also presented and unanimously adopted, expressing sympathy with, and offering the financial support of the assembly to the Coeur d'Alene Miners' union:

Whereas, it has come to our notice that a combine known as the Mine Owners' association has been formed, and with the assistance of capital aims to crush the Miners' union, which was organized for mutual assistance as well as for protection, therefore be it

Resolved, That the Deer Lodge Trades and Labor assembly pledge itself to assist the Miners' union of the Coeur d'Alene in their struggle against capital and oppression; and be it further

Resolved, That this assembly appoint a committee of five to solicit funds from all who are friendly toward the Miners' union which is battling for the rights and freedom of American fathers have done on several occasions; and be it further

Resolved, That we send a copy of these resolutions to the different papers for publication, including the Anaconda Standard.

AT THE OPERA HOUSE.

Funny Gus Williams Coming to Make the People Laugh.

A coming attraction at Evans' opera house on Saturday, May 28, will be Gus Williams, long a favorite here as a German dialect comedian and comic vocalist. He impersonates Alvin Karpis in a new version of "Karpis's Fortunes." Mr. Williams will sing several of his own latest humorous songs. His fresh vocal budget comprises "Coming Through the Dye" and a parody on "Comrades." The comedian also plays his burlesque piano solos. The novel way in which he plays false notes and executed lame runs up and down the scale form a screaming comedy in themselves. In the experienced hands of Gus Williams, Karpis becomes a very amusing personage, overflowing with eccentric traits and quaint peculiarities. In past seasons the varying "Fortunes of Karpis" caused no end of laughter. In its new form the amusing old comedy is more mirth-provoking than in its original guise.

Notice. We desire to warn our patrons and the public generally against one T. J. George who, it is reported to us, is traveling through Idaho representing himself to be an agent of the STANDARD. He is not now nor has he ever been in the employ of this newspaper.

STANDARD PUBLISHING CO., Anaconda, Montana, May 23, 1902.

The newest thing out, "Society in Montana" and "Society in Dakota." Call at King & Kennedy's.

If you want a refreshing drink, a clear Havana, or your demijohn refilled, go to Daly & Marron's.

TURNER AND LEE.

They Sign for a Fight Before the Anaconda Athletic Club.

The meeting of the Athletic club which was held at the park last night was fairly well attended. The meeting was called to order at 9 o'clock by P. J. Sullivan who occupied the chair in the absence of President Rod Williams. The question of instructor for the club was discussed at length. The club felt a delicacy in taking any definite steps owing to the doubt which exists as to whether or not the club will be self-sustaining.

To support a permanent instructor will prove rather expensive and until after the opening of the gymnasium, which takes place May 31, it was decided to let the matter rest.

P. J. Sullivan was appointed manager of the club. Arrangements were made for a glove contest between Charley Turner of Stockton, Cal., and Paddy Lee, champion welter weight, of the United States navy. The sparring contest will be the closing feature of the opening night. The following articles of agreement were drawn up and signed by both parties: We, the undersigned, Chas. Turner, middleweight pugilist of Stockton, Cal., and Paddy Lee, welter weight boxer of the United States navy, agree to box with a ounce gloves for a decision, before the members of the Anaconda athletic club for a purse of \$250 and a division of the gate receipts after the expenses are paid. The match to take place at the park pavilion on Tuesday, May 31. Signed, CHAS. TURNER, PADDY LEE.

Work is being vigorously pushed on the preparation of the bicycle track and completion is near. When completed it will be one of the finest tracks in the state.

For Sale. A furniture store in Granite, consisting of store and complete stock of furniture, doors, sash, glass; also a full line of undertaking goods. The above store is doing a good business and is the only house carrying the above line of goods in Granite. Address MITCHELL & FIFIELD, Granite, Mont.

A \$5,000 Claim Paid. LEADVILLE, Col., March 28, '02. Mr. Carlos Warfield, State Agent American Casualty Insurance and Security Company of Baltimore City, Butte City, Montana. DEAR SIR:—Your prompt action in the matter of settling to it that policy No. 204, \$5, held by P. J. Cunningham, and payable to me, was so speedily adjusted and fully paid, that you deserve from me heartfelt thanks, not alone for the promptness you have indulged in, but for your kind condolence to a grief-stricken family. No amount of money can take the place of a kind husband and father, but the \$5,000 paid by your company will enable me to rear and educate the fatherless children left to my care, always to reverse the memory of a thoughtful and provident father, and feel grateful to a beneficent company such as yours. Again thanking you for your kindness in this matter, I am Respectfully, MARY A. CUNNINGHAM.

Reduced Rates to Minneapolis. For the republican national convention at Minneapolis, June 7, the Great Northern railway line (Montana Central railway) will sell tickets on May 21st, June 1st, and 4th, at a single fare (\$40) for the round trip. Final limit June 25. J. E. DAWSON, General Agent.

Notices. Creditors of the Estes & Connell Mercantile Co. are hereby notified to settle their accounts at the office in the old location. Carroll accounts may be settled there also.
